

# Courses previously taken by senior guest auditors

---

## Please review the following information:

- This list is in lieu of the “Courses For Your Consideration” packet. In previous terms senior guest auditors have received permission to audit the courses listed below, but this **does not** guarantee permission will be granted for the upcoming term. This list is compiled as a courtesy, choices are not limited to this list. If you are interested in auditing one of these courses, you will need to verify if the course is available for the upcoming term by using [Course Search and Enroll](#).
- Course search **instructions video and printable PDF document** are available on the [senior guest auditor page](#) under *Search for Classes*.
- **Once you have found a course you would like to audit**, complete an online permission request form. The form is available **two weeks** before the start of the term.
- Please keep in mind:
  - There are many factors when allowing or denying permission to audit a course; please be respectful of the instructor/department decision.
  - Professors are provided all email addresses entered on the request form and therefore may contact you at one or all of them—please check all of the email accounts you provided. Although many professors are prompt with requests, it is possible that you will not receive a response or permission.
  - Please do not submit a duplicate request if you have not had a response. If no response/permission is received it is recommended that you submit a request for an alternate course or attend the first day of class (for in-person courses).
